5MM OCEAN-FLEX ONE PIECE SEMI-DRY SUIT

NEW
PRODUCT

OCEAN-FLEX ONE PIECE

-OF5

The OceanFlex Semi-Dry Suit is one of the most technologically advanced suits using state of the art highly flexible Ultrastretch neoprene and Beaver's expertise built up over 30 years since the production of the World's first Semi-Dry suit, the legendary Beaver 'Icelandic'. The design incorporates a new combination of Superstretch, extra strong protective GuardFlex and other neoprene's. Features modern and stylish rubber PVC logos for a distinct and subtle look. Constructed with twin wrist, ankle and neck seals to minimise almost all water ingress and help maintain thermal insulation and aid comfort. Manufactured with YKK zips, with corrosion free ultraslik nylon runners and teeth. The revolutionary materials provide outstanding levels of movement and superior levels of comfort, whilst also providing highly efficient insulation against the water. The OceanFlex is ideal for use in temperate conditions and available in a choice of either 5 or 7mm double lined neoprene's. This striking suit is also available as the OceanFlex Combi with over-jacket for extra thermal insulation and long yoke semi dry hood providing unmatched comfort and maximum

COLOUR: BLACK WITH GREY STITCHING.

SIZE: EXTRA LARGE, PLEASE SEE THE NEW SIZE CHART ON PAGE 66.

TWIN SEMI-DRY ANKLE SEALS

SEMI-DRY NECK SEAL
GUARDFLEX SHOULDERS

TWIN SEMI-DRY WRIST SEALS

GUARDFLEX KNEE PADS

EXTENDED ZIP PULLERS

All neoprene suits from Beaver feature Advanced Titanium Technology production procedures, the latest high tech ultraflex neoprene with silver coloured 'extend' internal lining combined with titanium. This is scientifically proven to reflect more body heat back, keeping you considerably warmer, whilst the 'extend' lining facilitates easier changing. This combination provides an extremely comfortable material producing a suit that will provide many years of service for the active water sports enthusiast. All Beaver suits also feature our advanced double lock, dry stitch technology on all seams. This involves double gluing the two sections together & then cup-stitching the joint on both sides of the material. The resulting seam is the strongest possible, giving you the famous Beaver durability. It is also exceptionally dry & lies flat against the skin to make it extremely comfortable.

GAUGE CONSOLES , CHECK GAUGES & B.C.D. SPARES

SURVEYOR COMPACT TWIN CONSOLE - GA SUR

Lightweight and compact in line twin console with high specification 48mm diameter 400 Bar dial contents gauge & 70 metre depth gauge with maximum depth indicator. 80cm high pressure hose with swivel and 7/16" UNF thread allows connection to all types of regulator. Concise information is provided by crystal clear and easily read digits, the faces are luminous in the dark. Manufactured in Italy to exceed the requirements of European Standards EN-250 and EN-13319. Total weight including the streamlined moulded rubber console is only 276 Grams.

R.R.P.
£129.50

ANALYSER CHECK GAUGE - GA ANA 3

60 mm face diameter 300 Bar DIN fitting high pressure contents indicator with push button pressure relief valve. Attaches to EN-144-3 type cylinder valve to determine cylinder pressure. For use with G5/8" DIN fitting valves, for surface use only.

R.R.P.
£71.95

SENTINEL TWIN CONSOLE - GA SEN

Solid & sturdy Twin instrument console with 400 Bar dial contents gauge & inline 80 metre depth gauge with maximum depth indicator. High visibility clear and concise dials, which are luminous in darker conditions. Supplied with a 80cm/32 inch long high pressure hose with swivel, for use at working pressures of up to 300 Bar, standard 7/16" UNF threads allow use with all types of SCUBA Diving Regulator. 63mm diameter externally, weighs 584 Grams inclusive of heavy duty moulded rubber console and high pressure hose.

R.R.P.
£127.50

B.C.D. CAM BAND - BC CAM

Heavy duty nylon webbing cam band with twin lock cam buckle, rubber resistance pad and velcro closing. Fits most types of cylinders & jackets. Secures cylinder to B.C.D.

R.R.P.
£22.25

B.C.D. INFLATION UNIT - BC INF

High performance, sturdy replacement inflation unit suitable for most types of Buoyancy Control Devices. Fits corrugated hoses with a diameter of approximately 25mm, supplied complete with stainless steel pin for attaching release valve cord, with standard DIN type direct feed hose attachment.

R.R.P.
£34.75

INSPECTOR CHECK GAUGE - GA INS

15 Bar intermediate pressure gauge for monitoring & checking regulator 1st stage output pressure & intermediate hose pressure between first & second stage. Suitable for use with all QD coupling hoses. For surface use only.

R.R.P.
£26.95

B.C.D. INFLATION UNIT SERVICE KIT - BC INF SK

All the parts necessary for an authorised Service Technician to carry out a 12 Monthly scheduled routine service on Beaver B.C.D. Inflation Units - BC INF.

B.C.D.'S & SNORKELLING VESTS

STORM SIDEMOUNT B.C.D.

Back-buoyancy rear bladder provides fantastic freedom of movement. Its streamlined and flexible design provides reduced drag and simple and effective buoyancy control whilst also ensuring a high level of comfort. With full visibility, it is quick and simple to get access to the cylinders, valves, and regulators, which allows efficient adjustment at variable depths. The Storm Sidemount B.C.D. system is suitable for use by all divers including professional sidemount, cave and technical experts. Supplied with harness, butt plate, wing and crotch strap ready assembled and is complete with rigging kit which includes attachment line, two extra strong bungee straps with a 100mm stainless steel swivel bolt snap and 48mm stainless steel screw lock quick link attached to each end. Also two heavy duty fully adjustable Cam Bands with stainless steel buckles, and four 120mm stainless steel swivel bolt snaps, everything that is required for immediate sidemount diving. The entire assembly can be quickly dismantled for ease of storage and travel.

Outer shell: super durable 1680D nylon with double PU coating for maximum abrasion resistance.

Bladder material: 210D nylon with TPU lamination.

Equipped with a high-performance inflator and efficient twin exhaust valve system.

Soft padded back pad ensures great comfort.

20" corrugated hose.

16" low pressure direct feed hose.

WEIGHT: 3.0 KG. NOT INCLUDING RIGGING KIT.

ALUMINIUM & FLAT BOTTOM STEEL CYLINDERS

Our Aluminium cylinders are manufactured from superior quality, high strength aluminium alloy and are made to European Community TPED & PED specification. Being made from aluminium they are very light and are less susceptible to corrosion. Our Aluminium cylinders are O2 cleaned and feature a flat base. Lightweight aluminium cylinder, manufactured to European Community specification with M25x2 thread & EN 144-1 neck.

Cylinders supplied O₂ clean, ready for use with Nitrox or Trimix if assembled in an appropriate environment with O₂ clean valves & equipment.

BARE ALUMINIUM CYLINDERS

12 LITRE FLAT BOTTOM - CONCAVE STEEL CYLINDERS

Flat Bottom Concave Base 12 Litre Cylinder, Beaver seamless steel cylinders are manufactured to stringent standards set by the demanding European PED specification to ensure your CE marked cylinder is allowed for use throughout the European Community - unlike other inferior designs. The body, manufactured from precision grade Steel exceeding BS 708 A 37, provides a high tensile strength and an elastic modulus that is 3 times superior to Aluminium. The cylinder is precision coated by 40µm Flame Spray Galvanising, an anti oxidising RAL 9010 precoat and a smooth, tough lacquer finish. Our cylinders are supplied O₂ clean for mixed gas compatibility and ready for use with Nitrox or Trimix if assembled in an appropriate environment with O₂ clean valves & equipment and are suitable for use with M25 X 2 EN-144-1 Compatible outlet valves. 12 Litre capacity with a Maximum Working Pressure of 232 Bar, providing 2784 Litres of gas when fully charged. Measure 171mm in diameter, 685 mm length and weighs approximately 14.6 Kgs* when empty.

STEEL CYLINDERS

Beaver seamless cylinders are manufactured to stringent standards set by the demanding European PED specification to ensure your CE marked cylinder is allowed for use throughout the European Community - unlike other inferior designs.

The body, manufactured from precision grade Steel exceeding BS 708 A 37, provides a high tensile strength and an elastic modulus that is 3 times superior to Aluminium. The cylinder is precision coated by 40µm Flame Spray Galvanising, an anti oxidising RAL 9010 precoat and a smooth, tough lacquer finish. Our cylinders are supplied O₂ clean for mixed gas compatibility.

Our cylinder packages are complete with the latest EN 144-1 smooth flow valve with M25X2 EN 144 thread. A durable polymer boot protects a vital part of your life support system and allows vertical storage.

Combining these high tech features provides a corrosion resistant cylinder which can satisfy your air requirements over many years of intensive diving.

BARE STEEL CYLINDERS

Lightweight Steel cylinder, manufactured to European Community PED specification with M25x2 thread & EN 144-1 neck. Bare cylinder only.

SIZE IN LITRES:	CODE:	R.R.P.	Weight kg	Diameter mm	Length mm

VALVE & HOSE ADAPTORS

232 BAR A-CLAMP / 300 BAR DIN MALE CHARGING ADAPTOR
- **AD A3DM**

Allows charging of cylinders fitted with EN-144-3 DIN 300 Bar valves by compressors with A-Clamp fitting hoses, Nitrox Compatible

R.R.P.
£43.75

232 BAR FEMALE DIN / 300 BAR MALE CHARGING ADAPTOR
- **AD 2D3D**

Converts 232 bar DIN outlet to 300 Bar DIN inlet, allowing the connection of a 300 Bar valve to 232 Bar on a 232 Bar fitting compressor hose. Compatible with EN-144-1 & 3, Nitrox Compatible

R.R.P.
£21.75

LOW PRESSURE HOSE ADAPTORS

Allows connection of additional low pressure hoses to a single outlet and also hoses to be neatly located. Ideal for technical divers with many accessories, Nitrox Compatible.

3/8" UNF - TRIPLE OUTLET
- **AD 3T**

R.R.P.
£30.25

3/8" UNF - DOUBLE OUTLET
- **AD 3D**

£34.25

3/8" UNF 90° SINGLE OUTLET - AD 390

£34.75

REGULATOR SHUT-OFF VALVE - HS SOV

For use to isolate a regulator 2nd stage in the event of free flow especially on regulators not designed for use in colder waters. By fitting the Regulator Shut-Off Valve, a simple yet effective sliding action of the valve sleeve will manually isolate the free flowing regulator or octopus, allowing for a safe ascent. Suitable for fitting to hoses with a standard 9/16 UNF connection.

R.R.P.
£30.15

MULTI DIRECTIONAL REGULATOR HOSE SWIVEL - HS SWM

Compact stainless steel swivel allowing improved freedom of movement & comfort for your regulator & octopus. Fittings are 9/16" UNF to fit most regulator & octopus hoses. The regulator hose swivel also reduces the risk of twisting or kinking hoses.

R.R.P.
£39.25

MULTI DIRECTIONAL REGULATOR HOSE SWIVEL SERVICE KIT
- **HS SWM KIT**

All O-Rings required to carry out a full service on HS SWM - Multi Directional Hose Swivel.

R.R.P.
£1.99

M26 FEMALE TO DIN MALE ADAPTOR

- **AD 62F2D**

Allows attachment of 232 Bar M26 Regulators to 232 Bar G 5/8 DIN Valved Cylinder, compatible with EN-144-1 & 3, Nitrox Compatible.

232 BAR M26 FEMALE/232 BAR

R.R.P.
£21.75

M26 MALE TO DIN ADAPTORS

Allows attachment of Regulators with DIN threads to M26 Valved Cylinder. Compatible with EN-144-1 & 3, Nitrox Compatible

DRY SUIT ZIPS 7 NEOPRENE SHEETS

DRY ZIP SIZES

When ordering a dry suit zip, whether for a new suit or as a replacement, it is vital that the length of the zip is correct. To assist in ordering and to minimise the chances of ordering the wrong size zip please use the following guide.

Each end of the zip, not the zip panel, is finished with moulded rubber block that seals and holds together the ends of the two sides of the zip. The length as specified in the product descriptions below is taken to extreme ends of the rubber blocks at each end of the zip.

STANDARD DUTY DRY SUIT ZIPS

Standard grade dry suit zip with Bronze Teeth & Runner, suitable for most drysuits, with extra wide backing for increased adhesion.

R.R.P.

81CM- ZIP S81	£92.75
86CM- ZIP S86	£98.25
91CM- ZIP S91	£101.00
96CM- ZIP S96	£105.75
101CM- ZIP S101	£111.25

DRY CONVENIENCE ZIP - ZIP DC

Standard grade Bronze Teeth and Runner 25.4cm long dry suit convenience zip with high grade backing for excellent adhesion.

R.R.P.
£63.00

FLEX-SMOOTH - SUPERSTRETCH SMOOTHSKIN NEOPRENE SHEET

Superstretch smoothskin neoprene lined on one side with Black nylon jersey, super flexible, ideal for comfortable long lasting seals.

NOMINAL SHEET SIZE: 2.1 X 1.27 METRES.

BLACK 3MM - NF 3

R.R.P.
£114.25

BLACK 5MM - NF 5

£147.25

SUPERSTRETCH

IN ADDITION, WE SUPPLY A COMPLETE RANGE OF NEOPRENE SHEETS WHICH ARE AVAILABLE TO ORDER.

MINIMUM QUANTITY IS 10 SHEETS OF THE SAME TYPE/COLOUR COMBINATION.

PLEASE CONTACT US WITH YOUR REQUIREMENTS & WE WOULD BE DELIGHTED TO QUOTE PRICES ETC.

IN ADDITION, WE CAN SUPPLY ANY OTHER SIZE TO ORDER.

MINIMUM QUANTITY IS 6 OF THE SAME LENGTH.

PLEASE CONTACT US WITH YOUR REQUIREMENTS & WE WOULD BE DELIGHTED TO QUOTE PRICES ETC.
